

LINWOOD SUPPLY, INC.

PEAT, COMPOST & BULK COVERAGE

1 cubic yard will cover:

<u>depth</u>	<u>Sq ft</u>	<u>Sq Yards</u>	<u>Sq Meters</u>
1/4"	1,280	142	119.
1"	320	35.5	29.75
3"	106	11.75	9.85
4"	80	8.75	7.45
5"	64	7	5.95
7"	45	5	4

This chart is intended as a guide for estimating.
some numbers have been rounded off for convenience.

Always order Compost & Bark by volume - NEVER order by weight!!

When ordering by weight (kilo's, tons, pounds) you are also purchasing the moisture content of the compost. Water weighs 8.3453 pounds / gallon or 3.785 kg / liter. The bulk density of compost and similar materials vary greatly depending on the batch, base materials and especially the time of year. For these reasons, the only accurate measurement of peat moss, soil or compost, or any similar bulk material, is by volume measured in cubic yards or cubic meters. Don't be cheated!!

Some useful volume conversions:

1 sq meter = 10.765 sq ft 1 sq yard = 9 sq ft

1 cubic yard = 27 cubic feet = 0.764 cubic meters

1 cubic meter = 1.308 cubic yards = 35.198 cubic ft

144 cubic inches = 1 cubic foot = .0283 cubic meters
